SUBJECT INDEX*

A

Abdominal abscess
A meta-analysis comparing conservative treatment versus acute appendectomy for complicated appendicitis (abscess or phlegmon) (Simillis et al). 2010;147:818-29
Physiologic predictors of postoperative abscess in children with perforated appendicitis: subset analysis from a prospective randomized trial (Fraser et al). 2010;147:729-32

Abdominal aortic aneurysm. *see* Aortic aneurysm, abdominal

Abdominal neoplasms
Operative management of solitary intra-abdominal recurrence of hepatocellular carcinoma (Sano et al). 2010;147:311 (Letter)

Abdominal pain
Chronic recurrent crampy abdominal pain owing to partial intestinal malrotation (van den Hoven and Roumen). 2010;147:893-4

Absorbable implants
A novel treatment for bile duct injury with a tissue-engineered bioabsorbable polymer patch (Aikawa et al). 2010;147:575-80

Academic medical center
Research and the independent academic medical center (Helling). 2010;147:313-7

Accreditation
Efforts to advance simulation-based surgical education through the American College of Surgeons-accredited Education Institutes (Sachdeva). 2010;147:612-3

Adenocarcinoma
Postoperative intra-abdominal infection increases angiogenesis and tumor recurrence after surgical excision of colon cancer in mice (Bohle et al). 2010;147:120-6

Adenocarcinoma, mucinous
Invasive carcinoma derived from the nonintestinal type intraductal papillary mucinous neoplasm of the pancreas has a poorer prognosis than that derived from the intestinal type (Sadakari et al). 2010;147:812-7

Adenoviridae
Adenovirus-mediated siRNA targeting Mcl-1 gene increases radiosensitivity of pancreatic carcinoma cells in vitro and in vivo (Guoan et al). 2010;147:553-61

Adenovirus. *see* Adenoviridae

Adiponectin
Carbon monoxide and adiponectin in sepsis (Siracusano and Girasole). 2010;147:755 (Letter)
Erratum to "Adiponectin deficiency is associated with severe polymicrobial sepsis, high inflammatory cytokine levels, and high mortality," (Uji et al) 2009;145:550-7. Correction. 2010;147:176

Adrenal gland diseases
An adrenal mass (Anderson et al). 2010;147:591-3

Adrenal gland neoplasms
Adrenal ganglioneuromas: a 10-year experience in a Chinese population (Qing et al). 2010;147:854-60

Adrenergic beta-antagonists
Restoration of neutrophil immunocompetence after cardiopulmonary bypass by beta-adrenergic blockers (Trabold et al). 2010;147:562-74

Adult
Significant parameters for surgery in adult intussusception (Tabrizian et al). 2010;147:227-32

Akt. *see* Proto-oncogene proteins c-akt

Aldosterone
Adrenal venous sampling: is it to be done routinely or selectively in evaluation of primary hyperaldosteronism? How far have we come in conclusion... (Ramakant and Verma). 2010;147:467 (Letter)

Alloantibody. *see* Isoantibodies

Anastomosis, surgical
Definition and grading of anastomotic leakage following anterior resection of the rectum: a proposal by the International Study Group of Rectal Cancer (Rahbari et al). 2010;147:339-51
Diagnosis of gastrointestinal anastomotic dehiscence after hospital discharge: impact on patient management and outcome (Telem et al). 2010;147:127-33
Incidence of pancreatic anastomotic failure and delayed gastric emptying after pancreatoduodenectomy in 507 consecutive patients: use of a web-based calculator to improve homogeneity of definition (Hashimoto and Traverso). 2010;147:503-15
Temporary intravascular shunting improves survival in a hypothermic traumatic shock swine model with superior mesenteric artery injuries (Ding et al). 2010;147:79-88
Toward improving uniformity and standardization in the reporting of pancreatic anastomoses: a new classification system by the International Study Group of Pancreatic Surgery (ISGPS) (Shukla et al). 2010;147:144-53

Angiogenesis inhibitors
Antiangiogenic response after 70% hepatectomy and its relationship with hepatic regeneration and angiogenesis in rats (Dogrul et al). 2010;147:288-94

Anti-bacterial agents
Antibiotic-coated surgical sutures against surgical site infection (Fujita). 2010;147:464-5 (Letter)
Response to "Antibiotic-coated surgical sutures against surgical site infection" (Justinger). 2010;147:465-6 (Letter reply)

Antineoplastic combined chemotherapy protocols
Prevalence and clinical relevance of pathological hepatic changes occurring after neoadjuvant chemotherapy for colorectal liver metastases (Hubert et al). 2010;147:185-94

Aortic aneurysm, abdominal
Decreased collagen and increased matrix metalloproteinase-13 in experimental abdominal aortic aneurysms in males compared with females (Cho et al). 2010;147:258-67
Improving surgical outcomes through adoption of evidence–based process measures: intervention specific or associated with overall hospital quality? (Brooke et al). 2010;147:481-90

Appendectomy
A meta-analysis comparing conservative treatment versus acute appendectomy for complicated appendicitis (abscess or phlegmon) (Simillis et al). 2010;147:818-29

Appendicitis
A meta-analysis comparing conservative treatment versus acute appendectomy for complicated appendicitis (abscess or phlegmon) (Simillis et al). 2010;147:818-29
Physiologic predictors of postoperative abscess in children with perforated appendicitis: subset analysis from a prospective randomized trial (Fraser et al). 2010;147:729-32
Systemic Th17-like cytokine pattern in gangrenous appendicitis but not in phlegmonous appendicitis (Rubér et al). 2010;147:366-72

*January pp. 1-180; February pp. 181-312; March pp. 313-468; April pp. 469-596; May pp. 597-756; June pp. 757-926.

Arterial occlusive diseases
Common femoral artery endarterectomy for occlusive disease: An 8-year single-center prospective study (Ballotta et al). 2010;147:268-74
Arteriovenous fistula
Arterial steal in brachiocephalic arteriovenous fistula: could it be prevented? (Rasouli et al). 2010;147:594 (Letter)
Reply to "Arterial steal in brachiocephalic arteriovenous fistula: could it be prevented?" (Papanikolaou et al). 2010; 147:594-5 (Letter reply)
Autograft. *see* Transplantation, autologous

B

Bariatric surgery
Surgical volume impacts bariatric surgery mortality: a case for bariatric surgery centers of excellence (Livingston). 2010; 147:751-3 (Letter)
Benchmarking
Benchmarking the quality of care of infants with low-risk gastroschisis using a novel risk stratification index (Chang et al). 2010;147:766-71
Beta-adrenergic blockers. *see* Adrenergic beta-antagonists
Bile ducts
Clinical value of additional resection of a margin-positive proximal bile duct in hilar cholangiocarcinoma (Shingu et al). 2010;147:49-56
A novel treatment for bile duct injury with a tissue-engineered bioabsorbable polymer patch (Aikawa et al). 2010;147: 575-80
Biomedical research
Research and the independent academic medical center (Helling). 2010;147:313-7
Surgical research publication in a selection of research and surgical speciality journals (Donovan and Tompkins). 2010; 147:5-12
Blood grouping and crossmatching
Does a positive lymphocyte cross-match contraindicate living–donor liver transplantation? (Hori et al). 2010;147:840-4
Blood transfusion
Two-surgeon technique of parenchymal transection contributes to reduced transfusion rate in patients undergoing major hepatectomy: analysis of 1,557 consecutive liver resections (Palavecino et al). 2010;147:40-8
Bone neoplasms
Prognostic factors and the therapeutic strategy for patients with bone metastasis from differentiated thyroid carcinoma (Orita et al). 2010;147:424-31
Brachiocephalic veins
Arterial steal in brachiocephalic arteriovenous fistula: could it be prevented? (Rasouli et al). 2010;147:594 (Letter)
Reply to "Arterial steal in brachiocephalic arteriovenous fistula: could it be prevented?" (Papanikolaou et al). 2010; 147:594-5 (Letter reply)
Breast cancer. *see* Breast neoplasms
Breast neoplasms
The effect of high intensity focused ultrasound ablation of human breast cancer (Hung). 2010;147:466-7 (Letter)
Bupivacaine
Repeated intraperitoneal instillation of levobupivacaine for the management of pain after laparoscopic cholecystectomy (Feroci and Scatizzi). 2010;147:753-4 (Letter)

C

Cancer care facilities
Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery (Heij and Wijnen). 2010;147:467-8 (Letter)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (Sola and Koniaris). 2010;147:468 (Letter reply)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (van Dalen et al). 2010;147:310-1 (Letter reply)
Capsaicin
Intracolonic capsaicin stimulates colonic motility and defecation in conscious dogs (Hayashi et al). 2010;147:789-97
Carbon monoxide
Carbon monoxide and adiponectin in sepsis (Siracusano and Girasole). 2010;147:755 (Letter)
Carcinoembryonic antigen
CEACAM-7: A predictive marker for rectal cancer recurrence (Messick et al). 2010;147:713-9
Carcinoma, hepatocellular
Gene-expression phenotypes for vascular invasiveness of hepatocellular carcinomas (Tanaka et al). 2010;147:405-14
Minor versus major hepatic resection for small hepatocellular carcinoma (HCC) in cirrhotic patients: a 20-year experience (Dahiya et al). 2010;147:676-85
Operative management of solitary intra-abdominal recurrence of hepatocellular carcinoma (Sano et al). 2010;147: 311 (Letter)
Outcome of repeat hepatectomy in patients with hepatocellular carcinoma aged 75 years and older (Tsujita et al). 2010; 147:696-703
Sister Mary Joseph's nodule associated with hepatocellular carcinoma (Liu et al). 2010;147:167-8
Carcinoma, medullary
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)
Simultaneous medullary and papillary thyroid carcinomas in carriers of the V804M RET germline mutation—a spurious association? (Machens and Dralle). 2010;147:895-6 (Letter)
Carcinoma, pancreatic ductal
Invasive carcinoma derived from the nonintestinal type intraductal papillary mucinous neoplasm of the pancreas has a poorer prognosis than that derived from the intestinal type (Sadakari et al). 2010;147:812-7
Carcinoma, papillary
Clinicopathologic significance of leptin and leptin receptor expressions in papillary thyroid carcinoma (Cheng et al). 2010;147:847-53
Invasive carcinoma derived from the nonintestinal type intraductal papillary mucinous neoplasm of the pancreas has a poorer prognosis than that derived from the intestinal type (Sadakari et al). 2010;147:812-7
Occult lymph node metastases in neck level V in papillary thyroid carcinoma (Lim et al). 2010;147:241-5
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)
Simultaneous medullary and papillary thyroid carcinomas in carriers of the V804M RET germline mutation—a spurious association? (Machens and Dralle). 2010;147:895-6 (Letter)
Carcinoma, renal cell
Outcome after thyroid surgery for metastasis from renal cell cancer (Machens and Dralle). 2010;147:65-71
Carcinoma, skin appendage
Kangri cancer (Wani). 2010;147:586-8
Cardiopulmonary bypass
Left ventricular-assisted myocardial revascularization favorably affects levels of circulating adhesion molecules and lung function (Stassano et al). 2010;147:434-40

Restoration of neutrophil immunocompetence after cardiopulmonary bypass by beta-adrenergic blockers (Trabold et al). 2010;147:562-74

Cardiovascular diseases
Overt diabetes mellitus adversely affects surgical outcomes of noncardiovascular patients (Bower et al). 2010;147:670-5

Cartoons. *see* The I.V. League

Catheter ablation
Cryoablation induces greater inflammatory and coagulative responses than radiofrequency ablation or laser induced thermotherapy in a rat liver model (Jansen et al). 2010;147:686-95

CEACAM-7. *see* Carcinoembryonic antigen

Cell adhesion molecules
Left ventricular-assisted myocardial revascularization favorably affects levels of circulating adhesion molecules and lung function (Stassano et al). 2010;147:434-40

Child
Amyand's hernia in the children: a single center experience (Cankorkmaz et al). 2010;147:140-3
Physiologic predictors of postoperative abscess in children with perforated appendicitis: subset analysis from a prospective randomized trial (Fraser et al). 2010;147:729-32

Cholangiocarcinoma
Clinical value of additional resection of a margin-positive proximal bile duct in hilar cholangiocarcinoma (Shingu et al). 2010;147:49-56

Cholangiopancreatography, endoscopic retrograde
Intra-operative sphincterotomy and ERCP for choledocholithiasis during laparoscopic cholecystectomy (Gagner). 2010;147:463 (Letter)

Cholangitis
Immunoglobulin G4-associated cholangitis (Kobayashi et al). 2010;147:748-9

Cholecystectomy
The President's gallbladder: a historical account of the cholecystectomy of Lyndon Baines Johnson (Pappas and Mulvihill). 2010;147:160-6

Cholecystectomy, laparoscopic
Intra-operative sphincterotomy and ERCP for choledocholithiasis during laparoscopic cholecystectomy (Gagner). 2010;147:463 (Letter)
Repeated intraperitoneal instillation of levobupivacaine for the management of pain after laparoscopic cholecystectomy (Feroci and Scatizzi). 2010;147:753-4 (Letter)

Choledocholithiasis
Intra-operative sphincterotomy and ERCP for choledocholithiasis during laparoscopic cholecystectomy (Gagner). 2010;147:463 (Letter)

Clinical competence
Administrative considerations when implementing ACS/APDS Skills Curriculum (Rooney et al). 2010;147:614-21
The impact of stress on surgical performance: a systematic review of the literature (Arora et al). 2010;147:318-30, 318.e1-.e19
Outcome measures for surgical simulators: Is the focus on technical skills the best approach? (Pugh et al). 2010;147:646-54

Cognition
Impact of sleep deprivation on medium-term psychomotor and cognitive performance of surgeons: Prospective cross–over study with a virtual surgery simulator and psychometric tests (Lehmann et al). 2010;147:246-54

Collagen type I
Decreased collagen and increased matrix metalloproteinase-13 in experimental abdominal aortic aneurysms in males compared with females (Cho et al). 2010;147:258-67

Collagen type III
Decreased collagen and increased matrix metalloproteinase-13 in experimental abdominal aortic aneurysms in males compared with females (Cho et al). 2010;147:258-67

Collagen type IV
Matrix metalloproteinase-9 delays wound healing in a murine wound model (Reiss et al). 2010;147:295-302

Colon
Operative outcome of colon interposition in the treatment of esophageal cancer: a 20-year experience (Klink et al). 2010;147:491-6

Colon cancer. *see* Colonic neoplasms

Colonic neoplasms
Giant colonic lipoma (Kaiser). 2010;147:750
Postoperative intra-abdominal infection increases angiogenesis and tumor recurrence after surgical excision of colon cancer in mice (Bohle et al). 2010;147:120-6
Predictors of occult nodal metastasis in colon cancer: results from a prospective multicenter trial (Wasif et al). 2010;147:352-7
Staging error does not explain the relationship between the number of lymph nodes in a colon cancer specimen and survival (Moore et al). 2010;147:358-65

Colorectal neoplasms
Prevalence and clinical relevance of pathological hepatic changes occurring after neoadjuvant chemotherapy for colorectal liver metastases (Hubert et al). 2010;147:185-94
Taiwan hospital-based detection of Lynch syndrome distinguishes 2 types of microsatellite instabilities in colorectal cancers (Chang et al). 2010;147:720-8

Colorectal neoplasms, hereditary nonpolyposis
Taiwan hospital-based detection of Lynch syndrome distinguishes 2 types of microsatellite instabilities in colorectal cancers (Chang et al). 2010;147:720-8

Colorectal surgery
Fast-track surgery after laparoscopic colorectal surgery: Is it feasible in a general surgery unit? (Scatizzi et al). 2010;147:219-26

Colostomy
Definition and grading of anastomotic leakage following anterior resection of the rectum: a proposal by the International Study Group of Rectal Cancer (Rahbari et al). 2010;147:339-51

Competency-based education
Efforts to advance simulation-based surgical education through the American College of Surgeons-accredited Education Institutes (Sachdeva). 2010;147:612-3
The impact of stress factors in simulation-based laparoscopic training (Andreatta et al). 2010;147:631-9

Computed tomography. *see* Tomography, X-ray computed

Coronary vessels
Endothelin-1-induced contractile responses of human coronary arterioles via endothelin-A receptors and PKC-a signaling pathways (Feng et al). 2010;147:798-804

Corrections
Erratum to "Adiponectin deficiency is associated with severe polymicrobial sepsis, high inflammatory cytokine levels, and high mortality," (Uji et al) (2009;145:550-7). 2010;147:176

Cost-benefit analysis
To plug or not to plug: a cost-effectiveness analysis for complex anal fistula (Adamina et al). 2010;147:72-8

Costs and cost analysis
Numerous studies have considered opportunity costs of operating time (Wachtel and Dexter). 2010;147:172 (Letter)

Cryoablation. *see* Cryosurgery

Cryopreservation
Results of cryopreserved parathyroid autografts: a retrospective multicenter study (Borot et al). 2010;147:529-35

Cryosurgery
Cryoablation induces greater inflammatory and coagulative responses than radiofrequency ablation or laser induced thermotherapy in a rat liver model (Jansen et al). 2010;147: 686-95

Curriculum
Administrative considerations when implementing ACS/APDS Skills Curriculum (Rooney et al). 2010;147: 614-21

Cutaneous fistula
Repair using the pectoralis major muscle flap for anastomotic leakage after esophageal reconstruction via the subcutaneous route (Morita et al). 2010;147:212-8

Cystadenoma
Long-term follow-up of patients with incidentally discovered pancreatic cystic neoplasms evaluated by endoscopic ultrasound (Pausawasdi et al). 2010;147:13-20

Cytokines
Erratum to "Adiponectin deficiency is associated with severe polymicrobial sepsis, high inflammatory cytokine levels, and high mortality," (Uji et al) 2009;145:550-7. Correction. 2010;147:176
Systemic Th17-like cytokine pattern in gangrenous appendicitis but not in phlegmonous appendicitis (Rubér et al). 2010;147:366-72

D

Decision making
Outcome measures for surgical simulators: Is the focus on technical skills the best approach? (Pugh et al). 2010;147: 646-54

Defecation
Intracolonic capsaicin stimulates colonic motility and defecation in conscious dogs (Hayashi et al). 2010;147:789-97

Deglutition disorders
Dysphagia lucoria: consideration for the endocrine surgeon (Pettiford et al). 2010;147:890-2
Unique features of esophagogastric junction pressure topography in hiatus hernia patients with dysphagia (Pandolfino et al). 2010;147:57-64

Diabetes complications
Normalization of diabetic wound healing (Francis-Goforth et al). 2010;147:446-9

Diabetes mellitus
Overt diabetes mellitus adversely affects surgical outcomes of noncardiovascular patients (Bower et al). 2010;147: 670-5

Diabetes mellitus, type 2
Laparoscopic sleeve gastrectomy for diabetes treatment in nonmorbidly obese patients: efficacy and change of insulin secretion (Lee et al). 2010;147:664-9
Roux-en-Y gastric bypass reverses renal glomerular but not tubular abnormalities in excessively obese diabetics (Saliba et al). 2010;147:282-7

Diagnosis
Diagnosis of gastrointestinal anastomotic dehiscence after hospital discharge: impact on patient management and outcome (Telem et al). 2010;147:127-33

Diagnostic errors
Staging error does not explain the relationship between the number of lymph nodes in a colon cancer specimen and survival (Moore et al). 2010;147:358-65

Digestive system surgical procedures
Tailored laparoscopic resection for suspected gastric gastrointestinal stromal tumors (Sasaki et al). 2010;147:516-20

Dihydrotetrabenazine. *see* Tetrabenazine

Disease
Contribution of biologically derived nanoparticles to disease (Schwartz et al). 2010;147:181-4

Disease-free survival
Survival benefit of liver transplantation and the effect of underlying liver disease (Gleisner et al). 2010;147:392-404

Disease models, animal
Cryoablation induces greater inflammatory and coagulative responses than radiofrequency ablation or laser induced thermotherapy in a rat liver model (Jansen et al). 2010;147: 686-95
Effect of heat-shock protein-90 (HSP90) inhibition on human hepatocytes and on liver regeneration in experimental models (Hackl et al). 2010;147:704-12

Drainage
Technique of right hemihepatectomy preserving ventral right anterior section guided by area of hepatic venous drainage (Tanaka et al). 2010;147:450-8

Drug-induced liver injury
Chemotherapy liver injury (Anderson and Chari). 2010;147: 195-6

Duodenal-jejunal bypass. *see* Gastric bypass

Dysphagia. *see* Deglutition disorders

E

Edema
Hydrostatic intestinal edema induced signaling pathways: potential role of mechanical forces (Shah et al). 2010;147:772-9

Editorials
Pathology reviews in the research context: future directions (Duggan and Doig). 2010;147:887-9

Education, medical
Efforts to advance simulation-based surgical education through the American College of Surgeons-accredited Education Institutes (Sachdeva). 2010;147:612-3
Ethics education in surgical residency: Past, present, and future (Grossman et al). 2010;147:114-9

Elective abdominal surgery. *see* Surgical procedures, elective

Endarterectomy
Common femoral artery endarterectomy for occlusive disease: An 8-year single-center prospective study (Ballotta et al). 2010;147:268-74

Endocrine surgical procedures
Endocrine surgery: where are we today? A national survey of young endocrine surgeons (Solorzano et al). 2010;147: 536-41

Endoscopic sphincterotomy. *see* Sphincterotomy, endoscopic

Endosonography
Long-term follow-up of patients with incidentally discovered pancreatic cystic neoplasms evaluated by endoscopic ultrasound (Pausawasdi et al). 2010;147:13-20

Endothelin-1
Endothelin-1-induced contractile responses of human coronary arterioles via endothelin-A receptors and PKC-a signaling pathways (Feng et al). 2010;147:798-804

Epidemiology
Understanding genetic epidemiologic association studies Part 1: fundamentals (Reid-Lombardo and Petersen). 2010;147: 469-74

ERCP. *see* Cholangiopancreatography, endoscopic retrograde

Esophageal cancer. *see* Esophageal neoplasms

Esophageal fistula
Repair using the pectoralis major muscle flap for anastomotic leakage after esophageal reconstruction via the subcutaneous route (Morita et al). 2010;147:212-8

Esophageal neoplasms
Operative outcome of colon interposition in the treatment of esophageal cancer: a 20-year experience (Klink et al). 2010; 147:491-6
Pre-operative dental brushing can reduce the risk of postoperative pneumonia in esophageal cancer patients (Akutsu et al). 2010;147:497-502

Repair using the pectoralis major muscle flap for anastomotic leakage after esophageal reconstruction via the subcutaneous route (Morita et al). 2010;147:212-8

Esophagectomy
Repair using the pectoralis major muscle flap for anastomotic leakage after esophageal reconstruction via the subcutaneous route (Morita et al). 2010;147:212-8

Esophagogastric junction
Unique features of esophagogastric junction pressure topography in hiatus hernia patients with dysphagia (Pandolfino et al). 2010;147:57-64

Esophagostomy
Technique of esophagojejunostomy using transoral placement of the pretilted anvil head after laparoscopic gastrectomy for gastric cancer (Sakuramoto et al). 2010;147:742-7

Ethics, medical
Ethics education in surgical residency: Past, present, and future (Grossman et al). 2010;147:114-9

Evidence-based medicine
Women rule (Bullard et al). 2010;147:134-7

Evidence-based practice
Improving surgical outcomes through adoption of evidence–based process measures: intervention specific or associated with overall hospital quality? (Brooke et al). 2010;147:481-90

F

Famous persons
The President's gallbladder: a historical account of the cholecystectomy of Lyndon Baines Johnson (Pappas and Mulvihill). 2010;147:160-6

Fatigue
The performance effects of sleep deprivation and fatigue (Sugden and Darzi). 2010;147:255-6

Femoral artery
Common femoral artery endarterectomy for occlusive disease: An 8-year single-center prospective study (Ballotta et al). 2010;147:268-74

G

Ganglioneuroma
Adrenal ganglioneuromas: a 10-year experience in a Chinese population (Qing et al). 2010;147:854-60

Gastrectomy
Laparoscopic sleeve gastrectomy for diabetes treatment in nonmorbidly obese patients: efficacy and change of insulin secretion (Lee et al). 2010;147:664-9
Technique of esophagojejunostomy using transoral placement of the pretilted anvil head after laparoscopic gastrectomy for gastric cancer (Sakuramoto et al). 2010;147:742-7
The utility of [^{11}C] dihydrotetrabenazine positron emission tomography scanning in assessing β-cell performance after sleeve gastrectomy and duodenal-jejunal bypass (Inabnet et al). 2010;147:303-9

Gastric bypass
Acute parathyroid hormone increase by oral peptones administration after roux-en-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release (Bevilacqua et al). 2010;147:655-61
Commentary on "Acute parathyroid hormone increase by oral peptones administration after Roux-En-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release" (Doherty). 2010;147:662-3
Roux-en-Y gastric bypass reverses renal glomerular but not tubular abnormalities in excessively obese diabetics (Saliba et al). 2010;147:282-7
The utility of [^{11}C] dihydrotetrabenazine positron emission tomography scanning in assessing β-cell performance after sleeve gastrectomy and duodenal-jejunal bypass (Inabnet et al). 2010;147:303-9

Gastric cancer. *see* Stomach neoplasms

Gastric emptying
Incidence of pancreatic anastomotic failure and delayed gastric emptying after pancreatoduodenectomy in 507 consecutive patients: use of a web-based calculator to improve homogeneity of definition (Hashimoto and Traverso). 2010;147:503-15

Gastric volvulus. *see* Stomach volvulus

Gastrointestinal motility
Intracolonic capsaicin stimulates colonic motility and defecation in conscious dogs (Hayashi et al). 2010;147:789-97

Gastrointestinal neoplasms
Restricted peri-operative fluid administration adjusted by serum lactate level improved outcome after major elective surgery for gastrointestinal malignancy (WenKui et al). 2010;147:542-52

Gastrointestinal stromal tumors
Tailored laparoscopic resection for suspected gastric gastrointestinal stromal tumors (Sasaki et al). 2010;147:516-20

Gastroschisis
Benchmarking the quality of care of infants with low-risk gastroschisis using a novel risk stratification index (Chang et al). 2010;147:766-71

Gender identity
Words, words, words (Wielgus et al). 2010;147:138-9

Gene expression
Gene-expression phenotypes for vascular invasiveness of hepatocellular carcinomas (Tanaka et al). 2010;147:405-14

General surgery
Efforts to advance simulation-based surgical education through the American College of Surgeons-accredited Education Institutes (Sachdeva). 2010;147:612-3
Fast-track surgery after laparoscopic colorectal surgery: Is it feasible in a general surgery unit? (Scatizzi et al). 2010;147:219-26
Global survey of factors influencing choice of surgical journal for manuscript submission (Søreide and Winter). 2010;147:475-80
Methodologies for establishing validity in surgical simulation studies (Van Nortwick et al). 2010;147:622-30

Genetics
Understanding genetic epidemiologic association studies Part 1: fundamentals (Reid-Lombardo and Petersen). 2010;147:469-74

Germ-line mutation
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)
Simultaneous medullary and papillary thyroid carcinomas in carriers of the V804M RET germline mutation—a spurious association? (Machens and Dralle). 2010;147:895-6 (Letter)

Gestational hypertension. *see* Hypertension, pregnancy-induced

Goiter, substernal
Substernal goiter: what is in a definition? (Shaha). 2010;147:239-40
The value of various definitions of intrathoracic goiter for predicting intra-operative and postoperative complications (Ríos et al). 2010;147:233-8

Groin
Tailored neurectomy for treatment of postherniorrhaphy inguinal neuralgia (Loos et al). 2010;147:275-81

H

Healthcare disparities
Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery (Heij and Wijnen). 2010;147:467-8 (Letter)

Disparities in cancer care: an operative perspective (Murphy et al). 2010;147:733-7
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (Sola and Koniaris). 2010;147:468 (Letter reply)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (van Dalen et al). 2010;147:310-1 (Letter reply)

Heart-assist devices
Left ventricular-assisted myocardial revascularization favorably affects levels of circulating adhesion molecules and lung function (Stassano et al). 2010;147:434-40

Heart neoplasms
Cardiac paraganglioma presenting as gestational hypertension (Dhanasopon et al). 2010;147:459-61

Hepatectomy
Antiangiogenic response after 70% hepatectomy and its relationship with hepatic regeneration and angiogenesis in rats (Dogrul et al). 2010;147:288-94
Minor versus major hepatic resection for small hepatocellular carcinoma (HCC) in cirrhotic patients: a 20-year experience (Dahiya et al). 2010;147:676-85
Outcome of repeat hepatectomy in patients with hepatocellular carcinoma aged 75 years and older (Tsujita et al). 2010;147:696-703
Technique of right hemihepatectomy preserving ventral right anterior section guided by area of hepatic venous drainage (Tanaka et al). 2010;147:450-8
Two-surgeon technique of parenchymal transection contributes to reduced transfusion rate in patients undergoing major hepatectomy: analysis of 1,557 consecutive liver resections (Palavecino et al). 2010;147:40-8

Hepatic artery
Dual hepatic artery reconstruction in living donor liver transplantation using a left hepatic graft with 2 hepatic arterial stumps (Uchiyama et al). 2010;147:878-86

Hepatic veins
Analysis of intrahepatic venovenous shunt by hepatic venography (Sakaguchi et al). 2010;147:805-10
The impact of hepatic venous anatomy on the hepatic remnant: need for assessment? (Nagorney). 2010;147:811
Technique of right hemihepatectomy preserving ventral right anterior section guided by area of hepatic venous drainage (Tanaka et al). 2010;147:450-8

Hepatocellular carcinoma. *see* Carcinoma, hepatocellular

Hepatocytes
Effect of heat-shock protein-90 (HSP90) inhibition on human hepatocytes and on liver regeneration in experimental models (Hackl et al). 2010;147:704-12

Hernia, hiatal
Unique features of esophagogastric junction pressure topography in hiatus hernia patients with dysphagia (Pandolfino et al). 2010;147:57-64

Hernia, inguinal
Amyand's hernia in the children: a single center experience (Cankorkmaz et al). 2010;147:140-3
Tailored neurectomy for treatment of postherniorrhaphy inguinal neuralgia (Loos et al). 2010;147:275-81

High-intensity focused ultrasound ablation
The effect of high intensity focused ultrasound ablation of human breast cancer (Hung). 2010;147:466-7 (Letter)

Hospital administration
A common question revisited: can differences in clinical severity explain the volume–outcome relationship? (Merkow and Bilimoria). 2010;147:610-1
Hospital characteristics, clinical severity, and outcomes for surgical oncology patients (Friese et al). 2010;147:602-9

Hospitals
Is hospital volume still an adequate measure to evaluate the quality of pancreatic surgery? (Fujita). 2010;147:754 (Letter)
Taiwan hospital-based detection of Lynch syndrome distinguishes 2 types of microsatellite instabilities in colorectal cancers (Chang et al). 2010;147:720-8

HSP90 heat-shock proteins
Effect of heat-shock protein-90 (HSP90) inhibition on human hepatocytes and on liver regeneration in experimental models (Hackl et al). 2010;147:704-12

Hyperaldosteronism
Adrenal venous sampling: is it to be done routinely or selectively in evaluation of primary hyperaldosteronism? How far have we come in conclusion... (Ramakant and Verma). 2010;147:467 (Letter)
Re: The role of radiologic studies in the evaluation and management of primary hyperaldosteronism (Miller). 2010;147:174-5 (Letter)

Hyperparathyroidism, primary
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)

Hypertension
Re: The role of radiologic studies in the evaluation and management of primary hyperaldosteronism (Miller). 2010;147:174-5 (Letter)

Hypertension, pregnancy-induced
Cardiac paraganglioma presenting as gestational hypertension (Dhanasopon et al). 2010;147:459-61

Hyperthermia, induced
Cryoablation induces greater inflammatory and coagulative responses than radiofrequency ablation or laser induced thermotherapy in a rat liver model (Jansen et al). 2010;147:686-95

Hypertonic saline solution. *see* Saline solution, hypertonic

I

Images in surgery
An adrenal mass (Anderson et al). 2010;147:591-3
Atypical subacute thyroiditis (Tsai et al). 2010;147:461-2
Cardiac paraganglioma presenting as gestational hypertension (Dhanasopon et al). 2010;147:459-61
Chronic recurrent crampy abdominal pain owing to partial intestinal malrotation (van den Hoven and Roumen). 2010;147:893-4
Giant colonic lipoma (Kaiser). 2010;147:750
Immunoglobulin G4-associated cholangitis (Kobayashi et al). 2010;147:748-9
Sister Mary Joseph's nodule associated with hepatocellular carcinoma (Liu et al). 2010;147:167-8
Vaginal paraganglioma presenting as a pelvic mass (Akl et al). 2010;147:169-71

Immunocompetence
Restoration of neutrophil immunocompetence after cardiopulmonary bypass by beta-adrenergic blockers (Trabold et al). 2010;147:562-74

Immunoglobulin G
Immunoglobulin G4-associated cholangitis (Kobayashi et al). 2010;147:748-9

Infant
Benchmarking the quality of care of infants with low-risk gastroschisis using a novel risk stratification index (Chang et al). 2010;147:766-71

Inguinal hernia. *see* Hernia, inguinal

Injections, intraperitoneal
Repeated intraperitoneal instillation of levobupivacaine for the management of pain after laparoscopic cholecystectomy (Feroci and Scatizzi). 2010;147:753-4 (Letter)

Insulin
Laparoscopic sleeve gastrectomy for diabetes treatment in nonmorbidly obese patients: efficacy and change of insulin secretion (Lee et al). 2010;147:664-9

Intensive care units
Addressing access to palliative care services in the surgical intensive care unit (Bradley et al). 2010;147:871-7

Interleukin-17
Systemic Th17-like cytokine pattern in gangrenous appendicitis but not in phlegmonous appendicitis (Rubér et al). 2010;147:366-72

Internship and residency
An organized response to resident work-hours restrictions (Walsh et al). 2010;147:311-2 (Letter)
Endocrine surgery: where are we today? A national survey of young endocrine surgeons (Solorzano et al). 2010;147:536-41
Ethics education in surgical residency: Past, present, and future (Grossman et al). 2010;147:114-9
Impact of sleep deprivation on medium-term psychomotor and cognitive performance of surgeons: Prospective cross–over study with a virtual surgery simulator and psychometric tests (Lehmann et al). 2010;147:246-54
Sleep deprivation and surgical performance: a difficult simulation (Dunnington). 2010;147:257

Intestinal diseases
Hydrostatic intestinal edema induced signaling pathways: potential role of mechanical forces (Shah et al). 2010;147:772-9

Intestinal obstruction
The relevance of transition zones on computed tomography in the management of small bowel obstruction (Colon et al). 2010;147:373-7

Intestine, small
Pediatric small bowel intussusception disease: feasibility of screening for surgery with early computed tomographic evaluation (Ko et al). 2010;147:521-8
The relevance of transition zones on computed tomography in the management of small bowel obstruction (Colon et al). 2010;147:373-7

Intestines
Chronic recurrent crampy abdominal pain owing to partial intestinal malrotation (van den Hoven and Roumen). 2010;147:893-4

Intraoperative complications
The value of various definitions of intrathoracic goiter for predicting intra-operative and postoperative complications (Ríos et al). 2010;147:233-8

Intraoperative period
Intra-operative sphincterotomy and ERCP for choledocholithiasis during laparoscopic cholecystectomy (Gagner). 2010;147:463 (Letter)
Operative management of solitary intra-abdominal recurrence of hepatocellular carcinoma (Sano et al). 2010;147:311 (Letter)

Intrathoracic goiter. *see* Goiter, substernal

Intussusception
Pediatric small bowel intussusception disease: feasibility of screening for surgery with early computed tomographic evaluation (Ko et al). 2010;147:521-8
Significant parameters for surgery in adult intussusception (Tabrizian et al). 2010;147:227-32

Iodine radioisotopes
Radioactive iodine treatment for differentiated thyroid carcinoma in Japan (Okamoto). 2010;147:432-3

Irrigation
Spatiotemporal progression of localized bacterial peritonitis before and after open abdomen lavage monitored by in vivo bioluminescent imaging (Sharma et al). 2010;147:89-97

Ischemia/reperfusion injury. *see* Reperfusion injury

Isoantibodies
Evidence that alloantibody is a major risk factor for graft loss and death in living donor liver transplantation (Stegall). 2010;147:845-6

Isoniazid
Effects of isoniazid and niacin on experimental wound-healing (Weinreich et al). 2010;147:780-8

J

Jejunostomy
Technique of esophagojejunostomy using transoral placement of the pretilted anvil head after laparoscopic gastrectomy for gastric cancer (Sakuramoto et al). 2010;147:742-7

K

Kidney glomerulus
Roux-en-Y gastric bypass reverses renal glomerular but not tubular abnormalities in excessively obese diabetics (Saliba et al). 2010;147:282-7

Kidney neoplasms
Outcome after thyroid surgery for metastasis from renal cell cancer (Machens and Dralle). 2010;147:65-71

Kidney tubules
Roux-en-Y gastric bypass reverses renal glomerular but not tubular abnormalities in excessively obese diabetics (Saliba et al). 2010;147:282-7

L

Lactate. *see* Lactic acid

Lactic acid
Restricted peri-operative fluid administration adjusted by serum lactate level improved outcome after major elective surgery for gastrointestinal malignancy (WenKui et al). 2010;147:542-52

Laparoscopic cholecystectomy. *see* Cholecystectomy, laparoscopic

Laparoscopy
A comparison of laparoscopic and robotic assisted suturing performance by experts and novices (Chandra et al). 2010;147:830-9
Fast-track surgery after laparoscopic colorectal surgery: Is it feasible in a general surgery unit? (Scatizzi et al). 2010;147:219-26
The impact of environmental noise on robot-assisted laparoscopic surgical performance (Siu et al). 2010;147:107-13
The impact of stress factors in simulation-based laparoscopic training (Andreatta et al). 2010;147:631-9
Laparoscopic middle pancreatectomy minimizes the procedure and maximizes the benefit (Rotellar and Pardo). 2010;147:895 (Letter)
Laparoscopic sleeve gastrectomy for diabetes treatment in nonmorbidly obese patients: efficacy and change of insulin secretion (Lee et al). 2010;147:664-9
Outcome measures for surgical simulators: Is the focus on technical skills the best approach? (Pugh et al). 2010;147:646-54
Peritoneal adhesion formation and reformation tracked by sequential laparoscopy: optimizing the time point for adhesiolysis (Gómez-Gil et al). 2010;147:378-91
Tailored laparoscopic resection for suspected gastric gastrointestinal stromal tumors (Sasaki et al). 2010;147:516-20
Technique of esophagojejunostomy using transoral placement of the pretilted anvil head after laparoscopic gastrectomy for gastric cancer (Sakuramoto et al). 2010;147:742-7

Laser therapy
Cryoablation induces greater inflammatory and coagulative responses than radiofrequency ablation or laser induced thermotherapy in a rat liver model (Jansen et al). 2010;147: 686-95

Lavage. *see* Irrigation

Leg
Composite tissue allotransplantation of the lower leg: a plastic surgeon's perspective (Knobloch et al). 2010;147:463-4 (Letter)

Length of stay
Fast-track surgery after laparoscopic colorectal surgery: Is it feasible in a general surgery unit? (Scatizzi et al). 2010;147: 219-26
Surgical volume impacts bariatric surgery mortality: a case for bariatric surgery centers of excellence (Livingston). 2010; 147:751-3 (Letter)

Leptin
Clinicopathologic significance of leptin and leptin receptor expressions in papillary thyroid carcinoma (Cheng et al). 2010;147:847-53

Letters to the Editors
Adrenal venous sampling: is it to be done routinely or selectively in evaluation of primary hyperaldosteronism? How far have we come in conclusion... (Ramakant and Verma). 2010;147:467 (Letter)
An organized response to resident work-hours restrictions (Walsh et al). 2010;147:311-2 (Letter)
Antibiotic-coated surgical sutures against surgical site infection (Fujita). 2010;147:464-5 (Letter)
Arterial steal in brachiocephalic arteriovenous fistula: could it be prevented? (Rasouli et al). 2010;147:594 (Letter)
Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery (Heij and Wijnen). 2010;147:467-8 (Letter)
Carbon monoxide and adiponectin in sepsis (Siracusano and Girasole). 2010;147:755 (Letter)
Cardiac metastasis from malignant pancreatic somatostatinoma (Stassano et al). 2010;147:172-3 (Letter)
Composite tissue allotransplantation of the lower leg: a plastic surgeon's perspective (Knobloch et al). 2010;147:463-4 (Letter)
The effect of high intensity focused ultrasound ablation of human breast cancer (Hung). 2010;147:466-7 (Letter)
Intra-operative sphincterotomy and ERCP for choledocholithiasis during laparoscopic cholecystectomy (Gagner). 2010;147:463 (Letter)
Is hospital volume still an adequate measure to evaluate the quality of pancreatic surgery? (Fujita). 2010;147:754 (Letter)
Laparoscopic middle pancreatectomy minimizes the procedure and maximizes the benefit (Rotellar and Pardo). 2010; 147:895 (Letter)
Letter to the editors (Lary). 2010;147:751 (Letter)
Numerous studies have considered opportunity costs of operating time (Wachtel and Dexter). 2010;147:172 (Letter)
Obesity and pancreatic cancer: possible role of the PI3K/Akt pathway (Huang and Chen). 2010;147:596 (Letter)
Operative management of solitary intra-abdominal recurrence of hepatocellular carcinoma (Sano et al). 2010;147: 311 (Letter)
Pathophysiology and treatment of the systemic inflammatory response syndrome from the perspective of evolutionary medicine (Fujita). 2010;147:595-6 (Letter)
Re: The role of radiologic studies in the evaluation and management of primary hyperaldosteronism (Miller). 2010; 147:174-5 (Letter)
Repeated intraperitoneal instillation of levobupivacaine for the management of pain after laparoscopic cholecystectomy (Feroci and Scatizzi). 2010;147:753-4 (Letter)
Reply to "Arterial steal in brachiocephalic arteriovenous fistula: could it be prevented?" (Papanikolaou et al). 2010; 147:594-5 (Letter reply)
Response to "Antibiotic-coated surgical sutures against surgical site infection" (Justinger). 2010;147:465-6 (Letter reply)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (Sola and Koniaris). 2010;147:468 (Letter reply)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (van Dalen et al). 2010;147:310-1 (Letter reply)
Response to "Obesity potentiates the growth and dissemination of pancreatic cancer" (Gaujoux et al). 2010;147:174 (Letter reply)
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)
Simultaneous medullary and papillary thyroid carcinomas in carriers of the V804M RET germline mutation—a spurious association? (Machens and Dralle). 2010;147:895-6 (Letter)
Surgical volume impacts bariatric surgery mortality: a case for bariatric surgery centers of excellence (Livingston). 2010; 147:751-3 (Letter)

Lipoma
Giant colonic lipoma (Kaiser). 2010;147:750

Liver
Cryoablation induces greater inflammatory and coagulative responses than radiofrequency ablation or laser induced thermotherapy in a rat liver model (Jansen et al). 2010;147: 686-95

Liver circulation
Technique of right hemihepatectomy preserving ventral right anterior section guided by area of hepatic venous drainage (Tanaka et al). 2010;147:450-8

Liver cirrhosis
Minor versus major hepatic resection for small hepatocellular carcinoma (HCC) in cirrhotic patients: a 20-year experience (Dahiya et al). 2010;147:676-85

Liver diseases
Survival benefit of liver transplantation and the effect of underlying liver disease (Gleisner et al). 2010;147:392-404
Timing-dependent protection of hypertonic saline solution administration in experimental liver ischemia/reperfusion injury (Figueira et al). 2010;147:415-23

Liver neoplasms
Chemotherapy liver injury (Anderson and Chari). 2010;147: 195-6
Prevalence and clinical relevance of pathological hepatic changes occurring after neoadjuvant chemotherapy for colorectal liver metastases (Hubert et al). 2010;147:185-94

Liver regeneration
Antiangiogenic response after 70% hepatectomy and its relationship with hepatic regeneration and angiogenesis in rats (Dogrul et al). 2010;147:288-94
Effect of heat-shock protein-90 (HSP90) inhibition on human hepatocytes and on liver regeneration in experimental models (Hackl et al). 2010;147:704-12

Liver transplantation
Does a positive lymphocyte cross-match contraindicate living-donor liver transplantation? (Hori et al). 2010;147:840-4
Dual hepatic artery reconstruction in living donor liver transplantation using a left hepatic graft with 2 hepatic arterial stumps (Uchiyama et al). 2010;147:878-86
Evaluation of donor vasculobiliary anatomic variations in liver graft procurements (Kishi et al). 2010;147:30-9
Evidence that alloantibody is a major risk factor for graft loss and death in living donor liver transplantation (Stegall). 2010;147:845-6

Gastric volvulus as a complication in the recipients after adult living donor liver transplantation (Shirouzu et al). 2010; 147:581-5
Survival benefit of liver transplantation and the effect of underlying liver disease (Gleisner et al). 2010;147:392-404

Living donors
Does a positive lymphocyte cross-match contraindicate living–donor liver transplantation? (Hori et al). 2010;147:840-4
Dual hepatic artery reconstruction in living donor liver transplantation using a left hepatic graft with 2 hepatic arterial stumps (Uchiyama et al). 2010;147:878-86
Evaluation of donor vasculobiliary anatomic variations in liver graft procurements (Kishi et al). 2010;147:30-9
Evidence that alloantibody is a major risk factor for graft loss and death in living donor liver transplantation (Stegall). 2010;147:845-6
Gastric volvulus as a complication in the recipients after adult living donor liver transplantation (Shirouzu et al). 2010; 147:581-5

Luminescent agents
Spatiotemporal progression of localized bacterial peritonitis before and after open abdomen lavage monitored by in vivo bioluminescent imaging (Sharma et al). 2010;147:89-97

Lung
Left ventricular-assisted myocardial revascularization favorably affects levels of circulating adhesion molecules and lung function (Stassano et al). 2010;147:434-40

Lymph node excision
Staging error does not explain the relationship between the number of lymph nodes in a colon cancer specimen and survival (Moore et al). 2010;147:358-65

Lymphatic metastasis
Occult lymph node metastases in neck level V in papillary thyroid carcinoma (Lim et al). 2010;147:241-5
Predictors of occult nodal metastasis in colon cancer: results from a prospective multicenter trial (Wasif et al). 2010;147: 352-7

Lymphocytes
Does a positive lymphocyte cross-match contraindicate living–donor liver transplantation? (Hori et al). 2010;147:840-4

Lynch syndrome. *see* Colorectal neoplasms, hereditary non-polyposis

M

Manuscripts as topic
Global survey of factors influencing choice of surgical journal for manuscript submission (Søreide and Winter). 2010;147: 475-80

Matrix metalloproteinase 9
Matrix metalloproteinase-9 delays wound healing in a murine wound model (Reiss et al). 2010;147:295-302

Matrix metalloproteinase 13
Decreased collagen and increased matrix metalloproteinase-13 in experimental abdominal aortic aneurysms in males compared with females (Cho et al). 2010;147:258-67

Medicine
Pathophysiology and treatment of the systemic inflammatory response syndrome from the perspective of evolutionary medicine (Fujita). 2010;147:595-6 (Letter)

Mesenteric artery, superior
Temporary intravascular shunting improves survival in a hypothermic traumatic shock swine model with superior mesenteric artery injuries (Ding et al). 2010;147:79-88

Microsatellite repeats
Taiwan hospital-based detection of Lynch syndrome distinguishes 2 types of microsatellite instabilities in colorectal cancers (Chang et al). 2010;147:720-8

Models, animal
Intracolonic capsaicin stimulates colonic motility and defecation in conscious dogs (Hayashi et al). 2010;147:789-97

Moments in Surgery
A name, a name, what's in a name? (O'Leary). 2010;147: 589-90
The President's gallbladder: a historical account of the cholecystectomy of Lyndon Baines Johnson (Pappas and Mulvihill). 2010;147:160-6

Mortality
Erratum to "Adiponectin deficiency is associated with severe polymicrobial sepsis, high inflammatory cytokine levels, and high mortality." (Uji et al) 2009;145:550-7. Correction. 2010;147:176
Surgical volume impacts bariatric surgery mortality: a case for bariatric surgery centers of excellence (Livingston). 2010; 147:751-3 (Letter)

Myocardial revascularization
Left ventricular-assisted myocardial revascularization favorably affects levels of circulating adhesion molecules and lung function (Stassano et al). 2010;147:434-40

N

Nanoparticles
Contribution of biologically derived nanoparticles to disease (Schwartz et al). 2010;147:181-4

Neck dissection
Occult lymph node metastases in neck level V in papillary thyroid carcinoma (Lim et al). 2010;147:241-5

Neoadjuvant therapy
Chemotherapy liver injury (Anderson and Chari). 2010;147: 195-6
Prevalence and clinical relevance of pathological hepatic changes occurring after neoadjuvant chemotherapy for colorectal liver metastases (Hubert et al). 2010;147:185-94

Neoplasm invasiveness
Gene-expression phenotypes for vascular invasiveness of hepatocellular carcinomas (Tanaka et al). 2010;147:405-14
Impact of lymphovascular invasion in patients with stage I gastric cancer (Kunisaki et al). 2010;147:204-11
Prognostic impact of the width of subserosal invasion in gastric cancer invading the subserosal layer (Soga et al). 2010;147:197-203

Neoplasm metastasis
Cardiac metastasis from malignant pancreatic somatostatinoma (Stassano et al). 2010;147:172-3 (Letter)
Outcome after thyroid surgery for metastasis from renal cell cancer (Machens and Dralle). 2010;147:65-71
Prevalence and clinical relevance of pathological hepatic changes occurring after neoadjuvant chemotherapy for colorectal liver metastases (Hubert et al). 2010;147:185-94
Prognostic factors and the therapeutic strategy for patients with bone metastasis from differentiated thyroid carcinoma (Orita et al). 2010;147:424-31

Neoplasm recurrence, local
Postoperative intra-abdominal infection increases angiogenesis and tumor recurrence after surgical excision of colon cancer in mice (Bohle et al). 2010;147:120-6

Neoplasm staging
Predictors of occult nodal metastasis in colon cancer: results from a prospective multicenter trial (Wasif et al). 2010;147: 352-7
Staging error does not explain the relationship between the number of lymph nodes in a colon cancer specimen and survival (Moore et al). 2010;147:358-65

Neuralgia
Tailored neurectomy for treatment of postherniorrhaphy inguinal neuralgia (Loos et al). 2010;147:275-81

Neuroblastoma
Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery (Heij and Wijnen). 2010;147:467-8 (Letter)

Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (Sola and Koniaris). 2010;147:468 (Letter reply)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (van Dalen et al). 2010;147:310-1 (Letter reply)

Neutrophils
Restoration of neutrophil immunocompetence after cardiopulmonary bypass by beta-adrenergic blockers (Trabold et al). 2010;147:562-74

Niacin
Effects of isoniazid and niacin on experimental wound-healing (Weinreich et al). 2010;147:780-8

Noise
The impact of environmental noise on robot-assisted laparoscopic surgical performance (Siu et al). 2010;147:107-13

O

Obesity
Laparoscopic sleeve gastrectomy for diabetes treatment in nonmorbidly obese patients: efficacy and change of insulin secretion (Lee et al). 2010;147:664-9
Obesity and pancreatic cancer: possible role of the PI3K/Akt pathway (Huang and Chen). 2010;147:596 (Letter)
Response to "Obesity potentiates the growth and dissemination of pancreatic cancer" (Gaujoux et al). 2010;147:174 (Letter reply)

Obesity, morbid
Acute parathyroid hormone increase by oral peptones administration after roux-en-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release (Bevilacqua et al). 2010;147:655-61
Commentary on "Acute parathyroid hormone increase by oral peptones administration after Roux-En-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release" (Doherty). 2010;147:662-3
Roux-en-Y gastric bypass reverses renal glomerular but not tubular abnormalities in excessively obese diabetics (Saliba et al). 2010;147:282-7

Oncology service, hospital
Disparities in cancer care: an operative perspective (Murphy et al). 2010;147:733-7

1-Phosphatidylinositol 3-kinase
Obesity and pancreatic cancer: possible role of the PI3K/Akt pathway (Huang and Chen). 2010;147:596 (Letter)

Operating rooms
Conflicts of interest concerning the use of implants in the operating room (Luginbuhl et al). 2010;147:738-41
Increased stress levels may explain the incomplete transfer of simulator-acquired skill to the operating room (Prabhu et al). 2010;147:640-5

Outcome assessment (health care)
A common question revisited: can differences in clinical severity explain the volume–outcome relationship? (Merkow and Bilimoria). 2010;147:610-1
Hospital characteristics, clinical severity, and outcomes for surgical oncology patients (Friese et al). 2010;147:602-9

P

Pain, postoperative
Repeated intraperitoneal instillation of levobupivacaine for the management of pain after laparoscopic cholecystectomy (Feroci and Scatizzi). 2010;147:753-4 (Letter)

Palliative care
Addressing access to palliative care services in the surgical intensive care unit (Bradley et al). 2010;147:871-7
Withdrawal of care in a potentially curable patient (Murphy et al). 2010;147:441-5

Pancreas
Incidence of pancreatic anastomotic failure and delayed gastric emptying after pancreatoduodenectomy in 507 consecutive patients: use of a web-based calculator to improve homogeneity of definition (Hashimoto and Traverso). 2010;147:503-15
Toward improving uniformity and standardization in the reporting of pancreatic anastomoses: a new classification system by the International Study Group of Pancreatic Surgery (ISGPS) (Shukla et al). 2010;147:144-53

Pancreatectomy
Extended central pancreatic resection as an alternative for extended left or extended right resection for appropriate pancreatic neoplasms (Cataldegirmen et al). 2010;147:331-8
Is hospital volume still an adequate measure to evaluate the quality of pancreatic surgery? (Fujita). 2010;147:754 (Letter)
Laparoscopic middle pancreatectomy minimizes the procedure and maximizes the benefit (Rotellar and Pardo). 2010;147:895 (Letter)
Middle pancreatectomy: Safety and long-term results (Shikano et al). 2010;147:21-9
Toward improving uniformity and standardization in the reporting of pancreatic anastomoses: a new classification system by the International Study Group of Pancreatic Surgery (ISGPS) (Shukla et al). 2010;147:144-53

Pancreatic cancer. *see* Pancreatic neoplasms

Pancreatic fistula
Pancreatic–pleural fistula is best managed by early operative intervention (King et al). 2010;147:154-9

Pancreatic neoplasms
Adenovirus-mediated siRNA targeting Mcl-1 gene increases radiosensitivity of pancreatic carcinoma cells in vitro and in vivo (Guoan et al). 2010;147:553-61
Cardiac metastasis from malignant pancreatic somatostatinoma (Stassano et al). 2010;147:172-3 (Letter)
Extended central pancreatic resection as an alternative for extended left or extended right resection for appropriate pancreatic neoplasms (Cataldegirmen et al). 2010;147:331-8
Invasive carcinoma derived from the nonintestinal type intraductal papillary mucinous neoplasm of the pancreas has a poorer prognosis than that derived from the intestinal type (Sadakari et al). 2010;147:812-7
Long-term follow-up of patients with incidentally discovered pancreatic cystic neoplasms evaluated by endoscopic ultrasound (Pausawasdi et al). 2010;147:13-20
Obesity and pancreatic cancer: possible role of the PI3K/Akt pathway (Huang and Chen). 2010;147:596 (Letter)
Response to "Obesity potentiates the growth and dissemination of pancreatic cancer" (Gaujoux et al). 2010;147:174 (Letter reply)

Pancreaticoduodenectomy
Incidence of pancreatic anastomotic failure and delayed gastric emptying after pancreatoduodenectomy in 507 consecutive patients: use of a web-based calculator to improve homogeneity of definition (Hashimoto and Traverso). 2010;147:503-15

Pancreatoduodenectomy. *see* Pancreaticoduodenectomy

Paraganglioma
Cardiac paraganglioma presenting as gestational hypertension (Dhanasopon et al). 2010;147:459-61

Paraganglioma, extra-adrenal
Vaginal paraganglioma presenting as a pelvic mass (Akl et al). 2010;147:169-71

Parathyroid glands
Results of cryopreserved parathyroid autografts: a retrospective multicenter study (Borot et al). 2010;147:529-35

Parathyroid hormone
Acute parathyroid hormone increase by oral peptones administration after roux-en-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release (Bevilacqua et al). 2010;147: 655-61
Commentary on "Acute parathyroid hormone increase by oral peptones administration after Roux-En-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release" (Doherty). 2010; 147:662-3

Patient discharge
Diagnosis of gastrointestinal anastomotic dehiscence after hospital discharge: impact on patient management and outcome (Telem et al). 2010;147:127-33

Patient simulation
Methodologies for establishing validity in surgical simulation studies (Van Nortwick et al). 2010;147:622-30

Pediatrics
Pediatric small bowel intussusception disease: feasibility of screening for surgery with early computed tomographic evaluation (Ko et al). 2010;147:521-8

Peptones
Acute parathyroid hormone increase by oral peptones administration after roux-en-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release (Bevilacqua et al). 2010;147: 655-61
Commentary on "Acute parathyroid hormone increase by oral peptones administration after Roux-En-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release" (Doherty). 2010; 147:662-3

Perioperative care
Fast-track surgery after laparoscopic colorectal surgery: Is it feasible in a general surgery unit? (Scatizzi et al). 2010;147: 219-26

Peritoneal diseases
Peritoneal adhesion formation and reformation tracked by sequential laparoscopy: optimizing the time point for adhesiolysis (Gómez-Gil et al). 2010;147:378-91

Peritonitis
Postoperative intra-abdominal infection increases angiogenesis and tumor recurrence after surgical excision of colon cancer in mice (Bohle et al). 2010;147:120-6
Spatiotemporal progression of localized bacterial peritonitis before and after open abdomen lavage monitored by in vivo bioluminescent imaging (Sharma et al). 2010;147:89-97

Phenotype
Gene-expression phenotypes for vascular invasiveness of hepatocellular carcinomas (Tanaka et al). 2010;147:405-14

Pheochromocytoma
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)

Phlebography
Analysis of intrahepatic venovenous shunt by hepatic venography (Sakaguchi et al). 2010;147:805-10

Phosphates
Acute parathyroid hormone increase by oral peptones administration after roux-en-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release (Bevilacqua et al). 2010;147: 655-61
Commentary on "Acute parathyroid hormone increase by oral peptones administration after Roux-En-Y gastric bypass surgery in obese subjects: role of phosphate in the rapid control of parathyroid hormone release" (Doherty). 2010; 147:662-3

PI3K. *see* 1-Phosphatidylinositol 3-kinase

Pleural diseases
Pancreatic–pleural fistula is best managed by early operative intervention (King et al). 2010;147:154-9

Pneumonia
Pre-operative dental brushing to decrease risk of postoperative pneumonia in esophageal cancer patients (Akutsu et al). 2010;147:497-502

Positron emission tomography
The utility of [^{11}C] dihydrotetrabenazine positron emission tomography scanning in assessing β-cell performance after sleeve gastrectomy and duodenal-jejunal bypass (Inabnet et al). 2010;147:303-9

Postoperative complications
Gastric volvulus as a complication in the recipients after adult living donor liver transplantation (Shirouzu et al). 2010; 147:581-5
Middle pancreatectomy: Safety and long-term results (Shikano et al). 2010;147:21-9
Overt diabetes mellitus adversely affects surgical outcomes of noncardiovascular patients (Bower et al). 2010;147:670-5
Physiologic predictors of postoperative abscess in children with perforated appendicitis: subset analysis from a prospective randomized trial (Fraser et al). 2010;147: 729-32
Pre-operative dental brushing can reduce the risk of postoperative pneumonia in esophageal cancer patients (Akutsu et al). 2010;147:497-502
Tailored neurectomy for treatment of postherniorrhaphy inguinal neuralgia (Loos et al). 2010;147:275-81
The value of various definitions of intrathoracic goiter for predicting intra-operative and postoperative complications (Ríos et al). 2010;147:233-8

Prognosis
Invasive carcinoma derived from the nonintestinal type intraductal papillary mucinous neoplasm of the pancreas has a poorer prognosis than that derived from the intestinal type (Sadakari et al). 2010;147:812-7
Prognostic impact of the width of subserosal invasion in gastric cancer invading the subserosal layer (Soga et al). 2010;147:197-203

Prostheses and implants
Conflicts of interest concerning the use of implants in the operating room (Luginbuhl et al). 2010;147:738-41

Protective devices
Scalpel safety in the operative setting: a systematic review (Watt et al). 2010;147:98-106

Protein kinase C-alpha
Endothelin-1-induced contractile responses of human coronary arterioles via endothelin-A receptors and PKC-a signaling pathways (Feng et al). 2010;147:798-804

Proto-oncogene proteins c-akt
Obesity and pancreatic cancer: possible role of the PI3K/Akt pathway (Huang and Chen). 2010;147:596 (Letter)

Proto-oncogene proteins c-bcl-2
Adenovirus-mediated siRNA targeting Mcl-1 gene increases radiosensitivity of pancreatic carcinoma cells in vitro and in vivo (Guoan et al). 2010;147:553-61

Proto-oncogene proteins c-ret
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)
Simultaneous medullary and papillary thyroid carcinomas in carriers of the V804M RET germline mutation—a spurious association? (Machens and Dralle). 2010;147:895-6 (Letter)

Psychometrics
Impact of sleep deprivation on medium-term psychomotor and cognitive performance of surgeons: Prospective cross-over study with a virtual surgery simulator and psychometric tests (Lehmann et al). 2010;147:246-54

Psychomotor performance
Impact of sleep deprivation on medium-term psychomotor and cognitive performance of surgeons: Prospective cross-over study with a virtual surgery simulator and psychometric tests (Lehmann et al). 2010;147:246-54
The performance effects of sleep deprivation and fatigue (Sugden and Darzi). 2010;147:255-6
Sleep deprivation and surgical performance: a difficult simulation (Dunnington). 2010;147:257

Publications
Letter to the editors (Lary). 2010;147:751 (Letter)
Surgical research publication in a selection of research and surgical speciality journals (Donovan and Tompkins). 2010;147:5-12

Q

Quality assurance, health care
Improving surgical outcomes through adoption of evidence-based process measures: intervention specific or associated with overall hospital quality? (Brooke et al). 2010;147:481-90

Quality indicators, health care
Is hospital volume still an adequate measure to evaluate the quality of pancreatic surgery? (Fujita). 2010;147:754 (Letter)

Quality of health care
Benchmarking the quality of care of infants with low-risk gastroschisis using a novel risk stratification index (Chang et al). 2010;147:766-71

R

Radiation tolerance
Adenovirus-mediated siRNA targeting Mcl-1 gene increases radiosensitivity of pancreatic carcinoma cells in vitro and in vivo (Guoan et al). 2010;147:553-61

Radiofrequency ablation. *see* Catheter ablation

Radiology
Re: The role of radiologic studies in the evaluation and management of primary hyperaldosteronism (Miller). 2010;147:174-5 (Letter)

Radiosensitivity. *see* Radiation tolerance

Receptor, endothelin A
Endothelin-1-induced contractile responses of human coronary arterioles via endothelin-A receptors and PKC-a signaling pathways (Feng et al). 2010;147:798-804

Receptors, leptin
Clinicopathologic significance of leptin and leptin receptor expressions in papillary thyroid carcinoma (Cheng et al). 2010;147:847-53

Rectal cancer. *see* Rectal neoplasms

Rectal fistula
To plug or not to plug: a cost-effectiveness analysis for complex anal fistula (Adamina et al). 2010;147:72-8

Rectal neoplasms
CEACAM-7: A predictive marker for rectal cancer recurrence (Messick et al). 2010;147:713-9
Definition and grading of anastomotic leakage following anterior resection of the rectum: a proposal by the International Study Group of Rectal Cancer (Rahbari et al). 2010;147:339-51

Recurrence
CEACAM-7: A predictive marker for rectal cancer recurrence (Messick et al). 2010;147:713-9
Impact of lymphovascular invasion in patients with stage I gastric cancer (Kunisaki et al). 2010;147:204-11

Registries
An approach to the use of state crash and fatality registries (Ang). 2010;147:1-4

Reperfusion injury
Timing-dependent protection of hypertonic saline solution administration in experimental liver ischemia/reperfusion injury (Figueira et al). 2010;147:415-23

Research
Pathology reviews in the research context: future directions (Duggan and Doig). 2010;147:887-9 (Editorial)

Risk factors
Evidence that alloantibody is a major risk factor for graft loss and death in living donor liver transplantation (Stegall). 2010;147:845-6

RNA, small interfering
Adenovirus-mediated siRNA targeting Mcl-1 gene increases radiosensitivity of pancreatic carcinoma cells in vitro and in vivo (Guoan et al). 2010;147:553-61

Robotics
A comparison of laparoscopic and robotic assisted suturing performance by experts and novices (Chandra et al). 2010;147:830-9
The impact of environmental noise on robot-assisted laparoscopic surgical performance (Siu et al). 2010;147:107-13

S

Saline solution, hypertonic
Timing-dependent protection of hypertonic saline solution administration in experimental liver ischemia/reperfusion injury (Figueira et al). 2010;147:415-23

Sepsis
Carbon monoxide and adiponectin in sepsis (Siracusano and Girasole). 2010;147:755 (Letter)
Erratum to "Adiponectin deficiency is associated with severe polymicrobial sepsis, high inflammatory cytokine levels, and high mortality," (Uji et al) 2009;145:550-7. Correction. 2010;147:176

Serous membrane
Prognostic impact of the width of subserosal invasion in gastric cancer invading the subserosal layer (Soga et al). 2010;147:197-203

Severity of illness index
Definition and grading of anastomotic leakage following anterior resection of the rectum: a proposal by the International Study Group of Rectal Cancer (Rahbari et al). 2010;147:339-51
Functional voice outcomes after thyroidectomy: an assessment of the Dysphonia Severity Index (DSI) after thyroidectomy (Henry et al). 2010;147:861-70

Sex characteristics
Decreased collagen and increased matrix metalloproteinase-13 in experimental abdominal aortic aneurysms in males compared with females (Cho et al). 2010;147:258-67
Women rule (Bullard et al). 2010;147:134-7

Shock, traumatic
Temporary intravascular shunting improves survival in a hypothermic traumatic shock swine model with superior mesenteric artery injuries (Ding et al). 2010;147:79-88

Signal transduction
Hydrostatic intestinal edema induced signaling pathways: potential role of mechanical forces (Shah et al). 2010;147:772-9

SiRNA. *see* RNA, small interfering

Skin carcinoma. *see* Carcinoma, Skin Appendage

Sleep deprivation
Impact of sleep deprivation on medium-term psychomotor and cognitive performance of surgeons: Prospective cross-

over study with a virtual surgery simulator and psychometric tests (Lehmann et al). 2010;147:246-54
The performance effects of sleep deprivation and fatigue (Sugden and Darzi). 2010;147:255-6
Sleep deprivation and surgical performance: a difficult simulation (Dunnington). 2010;147:257

Somatostatinoma
Cardiac metastasis from malignant pancreatic somatostatinoma (Stassano et al). 2010;147:172-3 (Letter)

Specialties, surgical
Ethics education in surgical residency: Past, present, and future (Grossman et al). 2010;147:114-9
Numerous studies have considered opportunity costs of operating time (Wachtel and Dexter). 2010;147:172 (Letter)
Surgical research publication in a selection of research and surgical speciality journals (Donovan and Tompkins). 2010;147:5-12

Sphincterotomy, endoscopic
Intra-operative sphincterotomy and ERCP for choledocholithiasis during laparoscopic cholecystectomy (Gagner). 2010;147:463 (Letter)

Stomach neoplasms
Impact of lymphovascular invasion in patients with stage I gastric cancer (Kunisaki et al). 2010;147:204-11
Prognostic impact of the width of subserosal invasion in gastric cancer invading the subserosal layer (Soga et al). 2010;147:197-203
Technique of esophagojejunostomy using transoral placement of the pretilted anvil head after laparoscopic gastrectomy for gastric cancer (Sakuramoto et al). 2010;147:742-7

Stomach volvulus
Gastric volvulus as a complication in the recipients after adult living donor liver transplantation (Shirouzu et al). 2010;147:581-5

Stress, psychological
The impact of stress on surgical performance: a systematic review of the literature (Arora et al). 2010;147:318-30, 318.e1-.e19
Increased stress levels may explain the incomplete transfer of simulator-acquired skill to the operating room (Prabhu et al). 2010;147:640-5

Subacute thyroiditis. *see* Thyroiditis, subacute

Surgeons
Composite tissue allotransplantation of the lower leg: a plastic surgeon's perspective (Knobloch et al). 2010;147:463-4 (Letter)

Surgery
Outcome after thyroid surgery for metastasis from renal cell cancer (Machens and Dralle). 2010;147:65-71
Pediatric small bowel intussusception disease: feasibility of screening for surgery with early computed tomographic evaluation (Ko et al). 2010;147:521-8
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (van Dalen et al). 2010;147:310-1 (Letter reply)
Significant parameters for surgery in adult intussusception (Tabrizian et al). 2010;147:227-32

Surgical flaps
Repair using the pectoralis major muscle flap for anastomotic leakage after esophageal reconstruction via the subcutaneous route (Morita et al). 2010;147:212-8

Surgical instruments
Scalpel safety in the operative setting: a systematic review (Watt et al). 2010;147:98-106

Surgical procedures, elective
Fast-track surgery after laparoscopic colorectal surgery: Is it feasible in a general surgery unit? (Scatizzi et al). 2010;147:219-26
Restricted peri-operative fluid administration adjusted by serum lactate level improved outcome after major elective surgery for gastrointestinal malignancy (WenKui et al). 2010;147:542-52

Surgical wound dehiscence
Diagnosis of gastrointestinal anastomotic dehiscence after hospital discharge: impact on patient management and outcome (Telem et al). 2010;147:127-33

Surgical wound infection
Antibiotic-coated surgical sutures against surgical site infection (Fujita). 2010;147:464-5 (Letter)
The molecular Koch's postulates and surgical infection: a view forward (Seal et al). 2010;147:757-65
Postoperative intra-abdominal infection increases angiogenesis and tumor recurrence after surgical excision of colon cancer in mice (Bohle et al). 2010;147:120-6
Response to "Antibiotic-coated surgical sutures against surgical site infection" (Justinger). 2010;147:465-6 (Letter reply)

Sutures
Antibiotic-coated surgical sutures against surgical site infection (Fujita). 2010;147:464-5 (Letter)
Response to "Antibiotic-coated surgical sutures against surgical site infection" (Justinger). 2010;147:465-6 (Letter reply)

Systemic inflammatory response syndrome
Pathophysiology and treatment of the systemic inflammatory response syndrome from the perspective of evolutionary medicine (Fujita). 2010;147:595-6 (Letter)

T

Task performance and analysis
The impact of environmental noise on robot-assisted laparoscopic surgical performance (Siu et al). 2010;147:107-13

Teaching
Increased stress levels may explain the incomplete transfer of simulator-acquired skill to the operating room (Prabhu et al). 2010;147:640-5

Telemedicine
Technologic developments in telemedicine: state-of-the-art academic interactions (Shimizu et al). 2010;147:597-601

Terminology as topic
Words, words, words (Wielgus et al). 2010;147:138-9

Tetrabenazine
The utility of [^{11}C] positron emission tomography scanning in assessing β-cell performance after sleeve gastrectomy and duodenal-jejunal bypass (Inabnet et al). 2010;147:303-9

The I.V. League
The I.V. League: "Congratulations on publishing your new book! Too bad texts are already two years out of date when they finally appear." (Pories). 2010;147:232 (Cartoon)
The I.V. League: "No, I'm sorry. Only the insured get discounts. The poor and uninsured pay full rates." (Pories). 2010;147:357 (Cartoon)
The I.V. League: "No, you still don't get it. We have to keep the 'n' small. We're trying to prove our drug is as good as theirs. If we don't reach statistical power, we can conclude there is no difference." (Pories). 2010;147:113 (Cartoon)
The I.V. League: "Our next movie shows a real breakthrough in NOTES: the remarkable extraction of a molar through the anus." (Pories). 2010;147:703 (Cartoon)
The I.V. League: "So join me in congratulating our chairman on his faculty approval rating of 17% — the highest ever in the history of our department." (Pories). 2010;147:552 (Cartoon)

Thermotherapy. *see* Hyperthermia, induced

Thyroid carcinoma. *see* Thyroid neoplasms

Thyroid neoplasms
Clinicopathologic significance of leptin and leptin receptor expressions in papillary thyroid carcinoma (Cheng et al). 2010;147:847-53
Occult lymph node metastases in neck level V in papillary thyroid carcinoma (Lim et al). 2010;147:241-5

Outcome after thyroid surgery for metastasis from renal cell cancer (Machens and Dralle). 2010;147:65-71
Prognostic factors and the therapeutic strategy for patients with bone metastasis from differentiated thyroid carcinoma (Orita et al). 2010;147:424-31
Radioactive iodine treatment for differentiated thyroid carcinoma in Japan (Okamoto). 2010;147:432-3
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)
Simultaneous medullary and papillary thyroid carcinomas in carriers of the V804M RET germline mutation—a spurious association? (Machens and Dralle). 2010;147:895-6 (Letter)

Thyroidectomy
Functional voice outcomes after thyroidectomy: an assessment of the Dysphonia Severity Index (DSI) after thyroidectomy (Henry et al). 2010;147:861-70

Thyroiditis, subacute
Atypical subacute thyroiditis (Tsai et al). 2010;147:461-2

Tissue adhesions
Peritoneal adhesion formation and reformation tracked by sequential laparoscopy: optimizing the time point for adhesiolysis (Gómez-Gil et al). 2010;147:378-91

Tissue and organ procurement
Evaluation of donor vasculobiliary anatomic variations in liver graft procurements (Kishi et al). 2010;147:30-9

Tissue engineering
A novel treatment for bile duct injury with a tissue-engineered bioabsorbable polymer patch (Aikawa et al). 2010;147:575-80

Tissue transplantation
Composite tissue allotransplantation of the lower leg: a plastic surgeon's perspective (Knobloch et al). 2010;147:463-4 (Letter)

Tomography, x-ray computed
Pediatric small bowel intussusception disease: feasibility of screening for surgery with early computed tomographic evaluation (Ko et al). 2010;147:521-8
The relevance of transition zones on computed tomography in the management of small bowel obstruction (Colon et al). 2010;147:373-7

Transfection
Response to "One hundred and seven family members with the rearranged during transfection V804M proto-oncogene mutation presenting with simultaneous medullary and papillary thyroid carcinomas, rare primary hyperparathyroidism, and no pheochromocytomas: is this a new syndrome—MEN 2C?" (Shifrin et al). 2010;147:896-8 (Letter reply)

Transplantation, autologous
Results of cryopreserved parathyroid autografts: a retrospective multicenter study (Borot et al). 2010;147:529-35

Treatment outcome
Functional voice outcomes after thyroidectomy: an assessment of the Dysphonia Severity Index (DSI) after thyroidectomy (Henry et al). 2010;147:861-70
Outcome of repeat hepatectomy in patients with hepatocellular carcinoma aged 75 years and older (Tsujita et al). 2010;147:696-703

Type 2 diabetes mellitus. *see* Diabetes mellitus, type 2

U

Umbilicus
Sister Mary Joseph's nodule associated with hepatocellular carcinoma (Liu et al). 2010;147:167-8

V

Vaginal neoplasms
Vaginal paraganglioma presenting as a pelvic mass (Akl et al). 2010;147:169-71

Venography. *see* Phlebography

W

Wilms tumor
Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery (Heij and Wijnen). 2010;147:467-8 (Letter)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (Sola and Koniaris). 2010;147:468 (Letter reply)
Response to "Cancer care in the pediatric surgical patient: a paradigm to abolish volume-outcome disparities in surgery" (van Dalen et al). 2010;147:310-1 (Letter reply)

Withholding treatment
Withdrawal of care in a potentially curable patient (Murphy et al). 2010;147:441-5

Work schedule tolerance
Impact of sleep deprivation on medium-term psychomotor and cognitive performance of surgeons: Prospective cross-over study with a virtual surgery simulator and psychometric tests (Lehmann et al). 2010;147:246-54
Sleep deprivation and surgical performance: a difficult simulation (Dunnington). 2010;147:257

Workload
An organized response to resident work-hours restrictions (Walsh et al). 2010;147:311-2 (Letter)

Wound healing
Effects of isoniazid and niacin on experimental wound-healing (Weinreich et al). 2010;147:780-8
Matrix metalloproteinase-9 delays wound healing in a murine wound model (Reiss et al). 2010;147:295-302
Normalization of diabetic wound healing (Francis-Goforth et al). 2010;147:446-9
